Decentralized Crypto Staking

How Crypto Staking Usually Works

Crypto Investors stake holdings by simply leaving them in their crypto wallet.

The Network uses holdings to forge new blocks on the blockchain.

Info is written into the new block & the investor's holdings are used to validate it.

The network rewards the staker for allowing their holdings to be used as validators.

How DeFily Crypto Staking Works

AI protocol trades BTC that maximizes the rewards given to Stakers

No Win No Fee

You can earn a percentage of other people's profits that are also staking

ACTIVE REWARDS

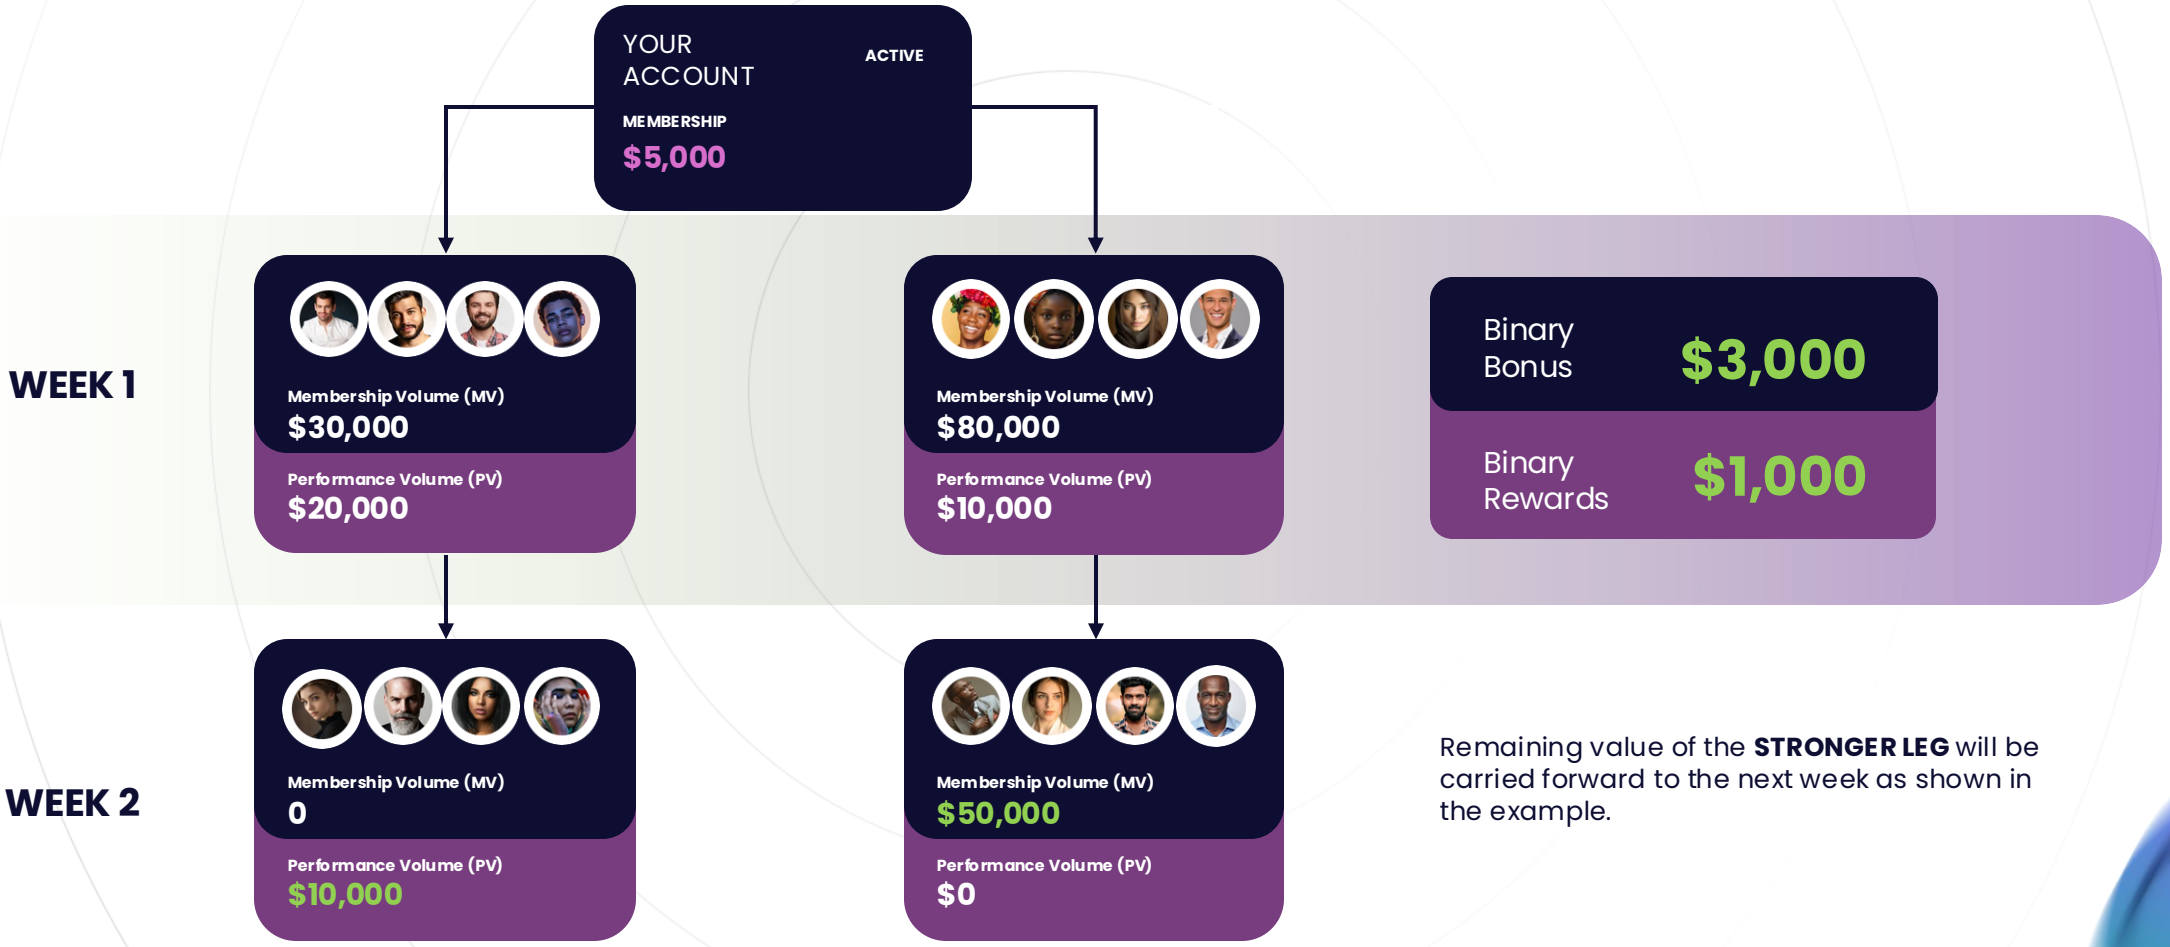
Binary Bonus (10%)

Earn 10% Binary Bonus from the MV of your weaker leg every week.

PASSIVE REWARDS

Binary Rewards (10%)

Earn 10% Binary Rewards from the PV of your weaker leg every week.



Remaining value of the **STRONGER LEG** will be carried forward to the next week as shown in the example.

DeFily

ACTIVE REWARDS

Leadership Bonus (up to 3%)

Earn up to 3% on your Binary bonus from the MV of your weaker leg every week by achieving the following ranks.

Rank	1st Generation *Open Line*	2nd Generation
Blue Diamond	1%	-
Black Diamond	2%	1%
Crown Diamond	3%	1%

Example:

Member 2 is Crown Diamond so if the left leg is the weaker side this week, this NFT Account will earn an extra 3% on top of both binaries because this is called open line (No Blue or Black Diamond)

If the right side is the weaker leg, then the position will earn 1% extra because 1% will go the Black Diamond and 1% to the Blue Diamond.
